(SPEECH)

[00:00:00.06] Cleaning carpeted stairs can be a difficult task. With BISSELL's versatile 3 in 1 Stair Tool, cleaning stairs is made easy. Let's ensure you are using your tool correctly so you get the best results when cleaning.

[00:00:12.21] First, secure the tool at the end of the hose and turn your machine on. Ensure the tool's spray tip is pointing downward. Easily twist the tool head to the desired cleaning setting.

[00:00:23.02] Set the tool onto the carpet. Then press the trigger and spray solution. Use the brush to gently scrub. Release the trigger and apply pressure to suction dirt and water.

[00:00:33.51] The flat area is used to clean the top of the stairs. The indented area can be used to clean the edge of the stair. The pointed edge can be used to clean inside the crevice. Cleaning stairs is easy with BISSELL's 3 in 1 Stair Tool.
